

# CONTENTS

1. Introduction to nutrition .....	3
1.1. General considerations .....	3
1.2. Object of study. Interdisciplinarity .....	5
1.3. Short history .....	9
1.3.1. Historical premises .....	9
1.3.1.1. Specificity of the historical periods in the evolution of discoveries regarding human nutrition .....	9
1.3.1.2. A synopsis regarding the evolution of knowledge on Nutrition in Romania .....	16
1.3.2. Contemporary evolutive status .....	20
1.4. Living matter and trophicity problems.....	23
1.4.1. Synoptic view .....	23
1.4.1.1. Fundamental constituents of living matter .....	23
1.4.1.2. Trophicity problems in the living world .....	27
1.4.2. Autotroph organisms .....	28
1.4.3. Heterotroph organisms .....	29
1.4.4. Trophicity and dynamic equilibrium .....	30
1.5. Nutritive requirements .....	33
1.5.1. Trophic requirements .....	34
1.5.2. Energetic requirements .....	35
1.6. Entheral and parentheral nutrition.....	38
1.6.1. Synoptic view.....	38
1.6.2. Entheral nutrition .....	40
1.6.3. Parentheral nutrition .....	42
1.7. Nutrients and chemical contaminants .....	47
2. Anatomo-physiological bases of nutrition .....	53
2.1. General considerations .....	53
2.2. Apparata and systems .....	53
2.3. Digestive apparatus .....	55
2.3.1. Segments of digestive tract .....	57
2.3.1.1. Oral cavity .....	57
2.3.1.1.1. Delimitation, connections.....	57
2.3.1.1.2. Tongue .....	59
2.3.1.1.3. Annexes of oral cavity .....	60

2.3.1.2. Pharynx .....	63
2.3.1.3. Esophagus .....	64
2.3.1.4. Stomach .....	65
2.3.1.5. Small intestine .....	67
2.3.1.5.1. Duodenum .....	67
2.3.1.5.2. Jejunum.....	67
2.3.1.5.3. Ileum.....	68
2.3.1.6. Large intestine.....	68
2.3.1.6.1. Cecum.....	69
2.3.1.6.2. Colon .....	69
2.3.1.6.3. Rectum.....	71
2.3.2. Annex glands of digestive tract .....	71
2.3.2.1. Pancreas .....	71
2.3.2.2. Liver .....	73
2.4. Physiology of digestion and absorption.....	74
2.4.1. Digestion.....	75
2.4.1.1. Oro-pharyngo-esophagian phase .....	75
2.4.1.1.1. Insalivation .....	76
2.4.1.1.2. Chewing.....	78
2.4.1.1.3. Swallowing .....	79
2.4.1.2. Gastric phase .....	80
2.4.1.2.1. Action of gastric secretion.....	80
2.4.1.2.2. Effect of gastric motricity.....	82
2.4.1.3. Intestinal phase .....	82
2.4.1.3.1. Action of pancreatic secretion .....	83
2.4.1.3.2. Action of bile secretion.....	84
2.4.1.3.3. Action of intestinal secretion.....	85
2.4.2. Absorption.....	87
3. Nutrition and dynamic characteristics of biological processes .....	91
3.1. General considerations .....	91
3.2. Metabolism .....	91
3.2.1. Phases and metabolic pathways .....	92
3.2.2. Metabolites. Metabolic turnover .....	94
3.3. Chronobiochemistry .....	96
3.3.1. Periodicity of biorhythms and chronobiochemistry .....	96
3.3.2. Conditioning of biorhythms .....	98
3.3.3. Characteristic parameters for chronobiochemistry .....	98
3.3.4. Autonomy and synchronization of biorhythms – chronobiochemical importance .....	101
3.4. Homeostasis .....	102
3.4.1. Regulation and equilibrium in homeostasis .....	103
3.4.2. Homeostasis in living matter .....	104
3.4.3. Heterostasis .....	105
3.5. Homeorhesis .....	106

3.5.1. Distable equilibrium .....	106
3.5.2. Morphophysiological implications .....	107
4. Nutritive principles .....	109
4.1. General considerations .....	109
4.2. Macronutrients .....	111
4.2.1. Carbohydrates .....	111
4.2.1.1. Synoptic view .....	111
4.2.1.2. General classification .....	112
4.2.1.3. Chemical composition and distribution in foods .....	114
4.2.1.4. Nutritional and metabolic characteristics .....	117
4.2.2. Lipids .....	123
4.2.2.1. Synoptic view .....	123
4.2.2.2. General classification .....	123
4.2.2.3. Chemical composition and distribution in foods .....	125
4.2.2.4. Nutritional and metabolic characteristics.....	130
4.2.3. Protids .....	138
4.2.3.1. Synoptic view .....	138
4.2.3.2. General classification .....	139
4.2.3.3. Chemical composition and distribution in foods .....	142
4.2.3.4. Nutritional and metabolic characteristics.....	148
4.3. Micronutrients .....	156
4.3.1. Mineral compounds .....	156
4.3.1.1. Synoptic view .....	156
4.3.1.2. General classification .....	157
4.3.1.3. Chemical composition and distribution in foods .....	158
4.3.1.3.1. Cationic biomineral compounds .....	159
4.3.1.3.2. Anionic biomineral compounds .....	170
4.3.2. Vitamins .....	178
4.3.2.1. Synoptic view .....	178
4.3.2.2. General classification .....	179
4.3.2.3. Chemical composition and distribution in foods .....	180
4.3.2.3.1. Liposoluble vitamins .....	180
4.3.2.3.1.1. Vitamins A.....	180
4.3.2.3.1.2. Vitamins D.....	184
4.3.2.3.1.3. Vitamins E .....	184
4.3.2.3.1.4. Vitamins K.....	185
4.3.2.3.2. Hydrosoluble vitamins .....	187
4.3.2.3.2.1. Vitamin B <sub>1</sub> .....	187
4.3.2.3.2.2. Vitamin B <sub>2</sub> .....	189

4.3.2.3.2.3. Vitamin B <sub>3</sub> .....	191
4.3.2.3.2.4. Vitamin B <sub>4</sub> .....	192
4.4.2.3.2.5. Vitamin B <sub>5</sub> .....	193
4.4.2.3.2.6. Vitamin B <sub>6</sub> .....	194
4.4.2.3.2.7. Vitamin B <sub>7</sub> .....	195
4.4.2.3.2.8. Vitamin B <sub>12</sub> .....	196
4.4.2.3.2.9. Vitamin C .....	196
4.4. Other nutrients .....	198
4.4.1. Tape water .....	198
4.4.1.1. Synoptic view .....	198
4.4.1.2. Classification of distribution system in organism .....	199
4.4.1.3. Water distribution in foods .....	203
4.4.2. Alimentary fibers .....	204
4.4.2.1. Synoptic view .....	204
4.4.2.2. General classification .....	204
4.4.2.3. Chemical composition and distribution in foods .....	205
4.4.2.3.1. Cellulose .....	205
4.4.2.3.2. Hemicellulose .....	207
4.4.2.3.3. Pectins .....	209
4.4.2.3.4. Lignin .....	210
4.4.2.3.5. Gums .....	215
4.4.2.4. Nutritional and metabolic characteristics .....	217
4.4.3. Bioactive substances .....	220
4.4.3.1. Synoptic view .....	220
4.4.3.2. General classification .....	220
4.4.3.3. Chemical composition and distribution in foods ....	222
4.4.3.4. Organic acids .....	223
4.4.3.5. Alkaloids .....	226
4.4.3.5.1. Heterocyclic structure of alkaloids.....	226
4.4.3.5.2. Alkaloids present in products for human consumption .....	227
4.4.3.6. Antibiotics and phytoncides .....	231
4.4.3.6.1. Antibiotics.....	231
4.4.3.6.2. Phytoncides.....	232
4.4.3.7. Plant enzymes .....	234
4.4.3.8. Phytohormones.....	239
4.4.3.9. Glycosides .....	242
4.4.3.9.1. Group of O-heterosides .....	243
4.4.3.9.2. Group of S-heterosides .....	249
4.4.3.9.3. Group of N-heterosides .....	250

4.4.3.10. Natural pigments .....	251
4.4.3.10.1. Chemical structure-biologic activity relationship .....	252
4.4.3.10.2. Natural compounds with chromogene activity .....	254
4.4.3.10.2.1. Non-nitrogenous pigments .....	254
4.4.3.10.2.2. Nitrogenous pigments .....	261
4.4.3.10.3. Natural compounds as food colourings .....	268
4.4.3.11. Tannins .....	270
4.4.3.11.1. Gallotannins.....	271
4.4.3.11.2. Catechinotannins .....	272
4.4.3.11.3. Tannins of food products.....	273
4.4.3.12. Etheric oils .....	273
4.4.3.12.1. Terpenoids .....	274
4.4.3.12.2. Tropolones.....	279
5. Biochemical bases of nutrition .....	281
5.1. General considerations .....	281
5.2. Digestion and absorption of the main nutrients .....	282
5.2.1. Digestion and absorption of carbohydrates .....	283
5.2.2. Digestion and absorption of lipids .....	284
5.2.3. Digestion and absorption of protids .....	286
5.2.4. Digestion and absorption of mineral compounds and water .....	288
5.2.4.1. Digestion and absorption of cationic compounds...	288
5.2.4.2. Digestion and absorption of anionic compounds....	290
5.3. Bioavailability .....	291
5.3.1. Interdisciplinary problems in bioavailability .....	292
5.3.2. Specificity of biotransformative processes .....	293
5.3.3. Conditioning of bioavailability .....	297
5.3.3.1. Intrinsic variables .....	297
5.3.3.2. Extrinsic variables .....	298
5.4. Biochemical characteristics of nutritional barriers .....	300
5.4.1. Barriers of nutritional interest.....	300
5.4.2. Gastro-intestinal barrier .....	301
5.4.3. Haemato-tissular barriers .....	302
5.4.3.1. Haemato-encephalic barrier .....	303
5.4.3.1.1. Blood-brain type barrier .....	303
5.4.3.1.2. Blood-cerebrospinal fluid type barrier .....	304
5.4.3.2. Haemato-placentary barrier .....	306
5.4.3.3. Hematological barrier of capillary vessels.....	309

5.4.4. Membrane barriers of cells .....	310
5.4.4.1. Transport systems - generalities .....	311
5.4.4.2. Microtransport systems .....	311
5.4.4.2.1. Passive transmembrane transport .....	311
5.4.4.2.1.1. Diffusion .....	312
5.4.4.2.1.2. Osmosis.....	315
5.4.4.2.1.3. Conditioned by Donnan equilibrium.....	318
5.4.4.2.2. Active transmembrane transport .....	319
5.4.4.2.2.1. Against the concentration gradient .....	320
5.4.4.2.2.2. Group translocation .....	320
5.4.4.3. Macrotransport systems.....	322
5.4.4.3.1. Endocytosis.....	322
5.4.4.3.2. Exocytosis.....	323
5.4.4.3.3. Specificity of macrotransport systems ....	324
5.5. Access of xenobiotics by digestive tract .....	325
5.5.1. Connected problems of xenobiotics.....	326
5.5.2. Food additives.....	328
5.5.3. Chemical food pollutants .....	333
References (selective) .....	337
Subject index .....	349
